*While Quantities Last

Benjamin Moore

"September is the perfect month to stain your deck thanks to lower humidity and ideal temperatures. Trendy two tone decks are easy to maintain when a lighter, more transparent stain is used on the floorboards. Dark finishes on horizontal decks are more prone to cracking and peeling, but will last for years on your rails. Talk to a decorator to help you choose the perfect pair."

— Lori O'Brien, Interior Decorator | Corner Brook, NL

"Investing in a good underlay is important. It gives the flooring stability, support, reduces noise, prevents moisture, and supports the locking system. All of these elements are vital to ensure the sturdiest floor installations. Ask us about which option is best for you."

— Mike Burke, Flooring Manager | Mount Pearl, NL

We can help! Contact a store in your area for info.

"What is the difference between waterproof and water-resistant laminate? Waterproof means that moisture will never be able to penetrate the flooring, no matter how much time goes by. Water-resistant means that the top surface is highly resistant to moisture which allows some time before a spill soaks through."

— Vanessa Bishop, Interior Decorator | Bay Roberts, NL
